AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-27. (Canceled)

Claim 28. (Previously Presented) A server apparatus connected with a facsimile apparatus via the Internet, the server apparatus comprising:

a memory configured to store reception capabilities regarding a type of facsimile data that the facsimile apparatus can receive, the reception capabilities being distinct from the facsimile data; and

a controller configured to receive an e-mail from the facsimile apparatus, to determine whether or not an e-mail address included in the received e-mail is a predetermined address, the predetermined address indicating the reception capabilities of the facsimile apparatus to be stored in the memory, the controller being further configured to store the capabilities of the facsimile apparatus in the memory, in response to a determination that the e-mail address is the predetermined address.

Claims 29-30. (Canceled)

Claim 31. (Previously Presented) A server apparatus connected with a facsimile apparatus via the Internet, the server apparatus comprising:

a memory configured to store reception capabilities regarding a type of facsimile data that the facsimile apparatus can receive, the reception capabilities being distinct from the facsimile data; and

a controller configured to receive, from the facsimile apparatus, an e-mail with a predetermined address, the predetermined address indicating that the e-mail contains data

P18051.A25

regarding the capabilities of the facsimile apparatus to be stored in the memory of the server apparatus, the controller being further configured to store the capabilities of the facsimile apparatus in the memory.

Claim 32. (Previously Presented) An Internet facsimile apparatus connected with a server apparatus via the Internet, the Internet facsimile apparatus comprising:

a communicator configured to communicate with a server apparatus via the Internet; and

a controller configured to transmit, to the server by e-mail, reception capabilities regarding a type of facsimile data that the Internet facsimile apparatus can receive, the transmitted e-mail having a predetermined address, the predetermined address indicating that the e-mail contains data regarding the capabilities of the Internet facsimile apparatus to be stored in the server apparatus.

Claims 33-42. (Canceled).
